PROFILE

I am a web developer with expertise in web technologies. I have two years of experience mentoring aspiring developers, helping them build their skills.

WORK EXPERIENCE

Sheryians Coding School   2022 – PRESENT

Backend Mentor

- I have extensive experience in backend development and have spent two years mentoring students in an institute setting. My mentorship focused on core backend technologies and best practices, helping students build robust, scalable systems. This role allowed me to share my knowledge, guide learners through complex concepts, and enhance their technical skills in a structured learning environment

PROJECTS

YouTube Clone

- Developed a YouTube clone, it includes video streaming, uploading video, etc. Used Node js, Grid fs MongoDB, etc
- Github : github.com/shannican/YoutubeNodeProjects
